

# License about Actiphy's products (as for July 1, 2020)

<p><b>Centralized Mangement Console</b></p>	<p>ActiveVisor™</p>	<p>ActiveVisor provides a centralized management console, and is offered to the users of Activelmage Protector 2018/2016R2. ActiveVisor configures, deploys, and manages the settings for Activelmage Protector agents with valid annual support service.</p>
<p><b>Virtual Environment</b></p>	<p>Activelmage Protector™ Virtual Edition</p>	<p>You need one license for one physical machine on which virtual environment is configured. You can use Activelmage Protector Server/Desktop/Linux Edition on virtual environment host and virtual machines, if OS is supported.</p> <p>There are no restrictions on the number of backup source virtual machines, which streamlines the license management.</p> <p>Activelmage Protector 2018 Update also provides HyperAgent for agentless backup.</p>
	<p>Activelmage Protector™ Virtual Edition Cloud License</p>	<p>One license covers five virtual machines in a cloud environment. Virtual machines in Cloud environment are not hosted on a specific virtual environment host. The traditional license system covering a specific physical machine cannot be applied to Cloud environment. Actiphy offers flexibly designed Cloud Environment License. Please install the licensed copy of Activelmage Protector on up to five virtual machines in a Cloud environment.</p>
	<p>Activelmage Protector™ Single Virtual Machine License for Public Cloud</p>	<p>Activelmage Protector can be used on one virtual machine in public cloud.</p>
	<p>Activelmage Protector™ for Hyper-V Enterprise</p>	<p>Use one licensed copy of Activelmage Protector on one Microsoft Hyper-V host machine. For cluster environment (CSVFS) you need to have licenses for the respective backup source nodes which backup source virtual machines are assigned.</p> <p>There is no limitation to the number of virtual machines or Hyper-V host to restore by using ReZoom™ feature.</p>
	<p>Activelmage Protector™ for Express5800/ft Virtual</p>	<p>Activelmage Protector for Express5800/ft Virtual is dedicated to Express5800/ft server, NEC's fault tolerant server. You need one license for one FT server which virtual environment is configured. Please contact NEC Corporation if you are interested to purchase.</p>

<b>Physical Environment</b>	ActiveImage Protector™ Server Edition	You need one license for the respective backup/restore source physical/virtual machines. Volume/Academic/Government Licenses are offered. Friendly Upgrade offers reasonable prices for ActiveImage Protector Server and Linux Edition.
	ActiveImage Protector™ Desktop Edition	
	ActiveImage Protector™ Linux Edition	
	ActiveImage Protector™ Server for RDX	ActiveImage Protector for RDX is optimized for Tandberg Data's RDX QuikStor / QuikStation.
	ActiveImage Protector™ Linux for RDX	Need one license for the respective backup/restore source physical machines. Volume/Academic/Government Licenses are offered. If you are interested to purchase, please contact Data Storage, acting as the agency.
	ActiveImage Protector™ for Express5800/ft Server	ActiveImage Protector for Express5800/ft Server is optimized for Express5800/ft server, NEC's fault tolerant server. Need one license for Express5800/ft server. If you are interested to purchase, please contact NEC Corporation.
<b>Deployment Tool</b>	ActiveImage Deploy USB™	ActiveImage Deploy USB is designed to create a bootable USB Flash Memory containing a master image of a pre-configured computer system. You need one license to deploy one master image to one new client machine.
	ActiveImage Deploy USB™ Plus	Use ActiveImage Deploy USB to create a bootable USB Flash Memory containing a master image of a pre-configured computer system. You need one license to deploy one master image to one new client machine. The PC can be shipped together with the created Restore USB Memory for the end user to restore default setting, in the event of a system failure.

<b>For IT Professional</b>	ActiveImage Protector™ IT Pro Edition	<p>ActiveImage Protector IT Pro Edition is an image based backup solution designed for system integrators.</p> <p>One IT Technician is licensed to back up unlimited number of virtual / physical servers and desktop PCs for unlimited number of times for one year.</p> <p>IT Pro Edition is useful for IT technicians to provide maintenance services for a number of customers.</p>
	ActiveImage Protector™ IT Pro Migration License	<p>Migration License is valid for 90 days.</p> <p>This edition is useful for P2V migration.</p>
<b>Cluster Environment</b>	ActiveImage Protector™ Cluster Edition	ActiveImage Protector Cluster Edition is optimized for cluster environment where Microsoft Failover Clustering (MSFC) is configured on two physical / virtual machines.
	ActiveImage Protector™ for CLUSTERPRO Windows	<p>ActiveImage Protector for CLUSTERPRO Windows is optimized for CLUSTERPRO X for Windows, NEC's cluster software.</p> <p>Please use ActiveImage Protector for CLUSTERPRO Windows in cluster environment where CLUSTERPRO (Windows) is configured on two physical / virtual machines.</p>
	ActiveImage Protector™ Plus CLUSTERPRO X	ActiveImage Protector for CLUSTERPRO is optimized for the environment where Windows and CLUSTERPRO X, NEC's cluster software, are configured.
<b>Image Management</b>	ImageCenter™ LE	ImageCenter LE, add-on to ActiveImage Protector, provides centralized management of backup image files from a remote computer.
<b>Disaster Recovery</b>	HyperBoot™ (Name changed from ImageBoot)	HyperBoot, add-on to ActiveImage Protector, immediately starts a virtual machine from any ActiveImage Protector backup image file, bypassing lengthy physical to virtual conversion and recovery process.
	vStandby AIP	<p>Use vStandby ActiveImage Protector on one computer.</p> <p>There is no limitation to the number or the types of ActiveImage Protector (AIP) image files to use.</p>
