## (Information Regarding Our Earnings Performance)

During the first quarter of fiscal year December 2006, (January 1 to March 31, 2006) the effective job offers-to-applicants ratio improved a step further to 1.04 in February from 1.00 in December (Source: Ministry of Health, Labor and Welfare) on the back of the continued recovery in the Japanese economy. Moreover the unemployment rate improved to $4.1 \%$, falling $0.3 \%$ points from the end of last year (source: Ministry of Internal Affairs and Communications).

Against this backdrop we continued to take aggressive steps to raise the recognition of our "en" brand and to fortify our marketing function. With regards to our mid-career hiring business, sales from "en Career Change Info," "en Career Change Consultant" and "en Temporary Placement Info" sites continued to grow strongly, along with brisk sales growth from "en Part-time Jobs Plus" site which was opened in February 2005. Additionally our student job information site called "en Job Info for Students 2007" launched in October 2005 got off to a good start, with sales rising strongly compared with the previous site which was in operation last year.
Consequently our sales rose by $43.2 \%$ year-over-year to $¥ 3,574$ million, ordinary income by $41.0 \%$ to $¥ 1,429$
million, and net income by $37.8 \%$ to $¥ 794$ million during the first quarter of fiscal year December 2006. We provide our sales and growth figures for our various business segments below.

## (Information Relating to Changes in Our Financial Position)

At the end of the first quarter our total assets declined by $¥ 269$ million from the end of the previous fiscal year to $¥ 9,680$ million. This decline is attributed primarily to the payment of dividends and taxes, which caused cash and equivalents to decline.

Total liabilities also declined by $¥ 518$ million from the end of the previous fiscal year to $¥ 2,444$ million due to primarily to a $¥ 531$ million reduction in unpaid taxes.

With regard to shareholders’ equity, capital reserves increased by approximately $¥ 7$ million due to the exercise of stock options, and unappropriated retained earnings rose by $¥ 241$ million due to strong growth in net income. Consequently shareholders’ equity rose by $¥ 249$ million from the end of the previous fiscal year to $¥ 7,235$ million.
