

## QRYPTOS Trading Rules

These Trading Rules provide explanations of trading methods, terminology meanings, and other matters so that customers can understand bitcoin, ethereum, litecoin, ethereum classic, Zcash, monero, ripple, bitcoincash, DASH, Stellar Lumens, Antshare (NEO), NEM, Augur, Factom, trades that can be performed using the Service (defined in Article 2 of the Terms of Use).

### 1. Trading Channels

Trades can be performed online through our website or dedicated application using computers, tablets, smartphones, or other devices. We do not accept orders through customer support or by email or telephone.

\*Some services may not be available from some devices.

### 2. Trading Times

| Trading days     | Trading start | Trading end           |
|------------------|---------------|-----------------------|
| Monday to Sunday | 7:00 AM       | 6:59 AM following day |

\*Trades cannot be performed during system maintenance. We will provide notification in advance when performing system maintenance.

\*Trading times may be changed whenever necessary.

### 3. Trading Pairs

A trading pair is the set of two crypto-currencies, displayed side by side, that are traded in a crypto-currency trade. The amount following the pair indicates the amount of money necessary to trade one unit of the virtual currency on the left using the virtual currency on the right.

\*ETH/BTC indicates the amount of BTC necessary to purchase one ETH.

| Spot trades (13 pairs) |         |          |         |         |
|------------------------|---------|----------|---------|---------|
| BTC/ETH                | BTC/XRP | BTC/LTC  | BTC/ETC | BTC/XMR |
| BTC/ZEC                | BTC/BCH | BTC/DASH | BTC/XLM | BTC/NEO |
| BTC/XEM                | BTC/REP | BTC/FCT  |         |         |

BTC = bitcoin; ETH = ethereum; XRP = ripple; LTC = Litecoin; ETC = ethereum classic; XMR = monero; ZEC = Zcash, BCH = Bitcoin Cash, DASH = DASH, XLM = Stellar Lumens, NEO = Antshare, XEM = NEM, REP = Augur, FCT = Factom

#### 4. Trading Overview

Customers can perform spot trades and CFD trades for bitcoins and ethereum.

|                                    | Spot trades: Bitcoin  |
|------------------------------------|---|
| Minimum order quantity (per order) | None<br>* There is no minimum trade quantity for Bitcoin.   |
| Trade (open position) limit        | None<br>* However, for market takers, spot trades are limited to 500 BTC per hour.                                    |
| Maximum order quantity (per order) | None<br>* However, for market takers, spot trades are limited to 500 BTC per hour.                                    |
|                                    | Spot trades: Ethereum   |
| Minimum order quantity (per order) | 0.5 ETH<br>* When selling less than 0.5 ETH, a sale order for the entire quantity must be made.                       |
| Trade (open position) limit        | None<br>* However, for market takers, spot trades are limited to the ethereum equivalent of 500 BTC per hour.         |
| Maximum order quantity (per order) | None<br>* However, for market takers, spot trades are limited to the ethereum equivalent of 500 BTC per hour.         |
|                                    | Spot trades: Ethereum classic   |
| Minimum order quantity (per order) | 0.5 ETC<br>* When selling less than 0.5 ETC, a sale order for the entire quantity must be made.                       |
| Trade (open position) limit        | None<br>* However, for market takers, spot trades are limited to the ethereum equivalent of 500 BTC per hour.         |
| Maximum order quantity (per order) | None<br>* However, for market takers, spot trades are limited to the ethereum classic equivalent of 500 BTC per hour. |
|                                    | Spot trades: Litecoin   |

|                                    |  |
|------------------------------------|--|
| Minimum order quantity (per order) | 0.5 LTC<br>* When selling less than 0.1 LTC, a sale order for the entire quantity must be made.              |
| Trade (open position) limit        | None<br>* However, for market takers, spot trades are limited to the bitcoin equivalent of 500 BTC per hour. |
| Maximum order quantity (per order) | None<br>* However, for market takers, spot trades are limited to the bitcoin equivalent of 500 BTC per hour. |
| Spot trades: Ripple                |  |
| Minimum order quantity (per order) | 0.5 XRP<br>* When selling less than 0.5 XRP, a sale order for the entire quantity must be made.              |
| Trade (open position) limit        | None<br>* However, for market takers, spot trades are limited to the ripple equivalent of 500 BTC per hour.  |
| Maximum order quantity (per order) | None<br>* However, for market takers, spot trades are limited to the ripple equivalent of 500 BTC per hour.  |
| Spot trades: Zcash                 |  |
| Minimum order quantity (per order) | 0.5 ZEC<br>* When selling less than 0.5 ZEC, a sale order for the entire quantity must be made.              |
| Trade (open position) limit        | None<br>* However, for market takers, spot trades are limited to the zcash equivalent of 500 BTC per hour.   |
| Maximum order quantity (per order) | None<br>* However, for market takers, spot trades are limited to the zcash equivalent of 500 BTC per hour.   |
| Spot trades: Monero                |  |
| Minimum order quantity (per order) | 0.5 XMR<br>* When selling less than 0.5 XMR, a sale order for the entire quantity must be made.              |
| Trade (open position) limit        | None<br>* However, for market takers, spot trades are limited to the monero equivalent of 500 BTC per hour.  |
| Maximum order quantity (per order) | None<br>* However, for market takers, spot trades are limited to the monero equivalent of 500 BTC per hour.  |
|                                    |  |

|   |   |
|---|---|
| Active period of limit and stop-loss orders | None (GTC)<br>Orders are active until executed or until canceled by the customer.   |
| Canceling orders                            | Limit orders and stop-loss orders placed by the customer can be canceled if they have not been executed.<br>Market orders cannot be canceled. |
| Changing orders                             | Limit orders and stop-loss orders placed by the customer can be changed if they have not been executed.<br>Market orders cannot be changed.   |
|   | Spot trades: Bitcoin Cash   |
| Minimum order quantity (per order)          | 0.5 BCH<br>* When selling less than 0.5 BCH, a sale order for the entire quantity must be made.   |
| Trade (open position) limit                 | None<br>* However, for market takers, spot trades are limited to the Bitcoin Cash equivalent of 500 BTC per hour.                             |
| Maximum order quantity (per order)          | None<br>* However, for market takers, spot trades are limited to the Bitcoin Cash equivalent of 500 BTC per hour.                             |
|   | Spot trades: DASH   |
| Minimum order quantity (per order)          | 0.5 DASH<br>* When selling less than 0.5 DASH, a sale order for the entire quantity must be made.   |
| Trade (open position) limit                 | None<br>* However, for market takers, spot trades are limited to the DASH equivalent of 500 BTC per hour.                                     |
| Maximum order quantity (per order)          | None<br>* However, for market takers, spot trades are limited to the DASH equivalent of 500 BTC per hour.                                     |
|   | Spot trades: Stellar Lumens   |
| Minimum order quantity (per order)          | 0.5 XLM<br>* When selling less than 0.5 XLM, a sale order for the entire quantity must be made.   |
| Trade (open position) limit                 | None<br>* However, for market takers, spot trades are limited to the NEM equivalent of 500 BTC per hour.                                      |
| Maximum order quantity (per order)          | None<br>* However, for market takers, spot trades are limited to the NEM equivalent of 500 BTC per hour.                                      |

|                                    | Spot trades: Antshare (NEO)   |
|------------------------------------|---|
| Minimum order quantity (per order) | 0.5 NEO<br>* When selling less than 0.5 NEO, a sale order for the entire quantity must be made.               |
| Trade (open position) limit        | None<br>* However, for market takers, spot trades are limited to the Antshare equivalent of 500 BTC per hour. |
| Maximum order quantity (per order) | None<br>* However, for market takers, spot trades are limited to the Antshare equivalent of 500 BTC per hour. |
|                                    | Spot trades: XEM  |
| Minimum order quantity (per order) | 0.5 XEM<br>* When selling less than 0.5 XEM, a sale order for the entire quantity must be made.               |
| Trade (open position) limit        | None<br>* However, for market takers, spot trades are limited to the NEM equivalent of 500 BTC per hour.      |
| Maximum order quantity (per order) | None<br>* However, for market takers, spot trades are limited to the NEM equivalent of 500 BTC per hour.      |
|                                    | Spot trades: REP  |
| Minimum order quantity (per order) | 0.5 REP<br>* When selling less than 0.5 REP, a sale order for the entire quantity must be made.               |
| Trade (open position) limit        | None<br>* However, for market takers, spot trades are limited to the Augur equivalent of 500 BTC per hour.    |
| Maximum order quantity (per order) | None<br>* However, for market takers, spot trades are limited to the Augur equivalent of 500 BTC per hour.    |
|                                    | Spot trades: FCT  |
| Minimum order quantity (per order) | 0.5 FCT<br>* When selling less than 0.5 FCT, a sale order for the entire quantity must be made.               |
| Trade (open position) limit        | None<br>* However, for market takers, spot trades are limited to the Factom equivalent of 500 BTC per hour.   |
| Maximum order quantity (per order) | None<br>* However, for market takers, spot trades are limited to the Factom equivalent of 500 BTC per hour.   |

## 5. Order Types

|                      |   |
|----------------------|---|
| Market orders        | This is an order method in which the customer does not specify a price. When a market buy order is placed, the order quantity is filled beginning with the lowest-priced sell order currently available. Likewise, when a market sell order is placed, the order quantity is filled beginning with the highest-priced buy order currently available. Batch sell orders, partial liquidation orders, total liquidation orders, batch liquidation orders, batch long position liquidation orders, and batch short position liquidation orders are executed as market orders.  |
| Limit orders         | Limit orders are orders with conditions set to buy if the price falls below a specified point or to sell if the price surpasses a specified point. There are instances in which only part of a limit order is executed; in these cases, the remaining order will remain active until executed or until canceled by the customer.  |
| Stop-loss orders     | Stop-loss orders are market orders with conditions set to buy if the price surpasses a specified point or to sell if the price falls below a specified point.   |
| Trailing Stop orders | <p>A trailing stop order is a stop order with a limit that "trails" after market price. They are normally used by traders to lock in profits of an existing position once the position PnL has gone into positive territory.</p> <p>In a buy trailing stop order, limit is set at a fixed number above market ask with a "trail" amount. When market ask falls, limit will also fall ("trailing" after market ask) by the trail amount. When market ask rises, limit does not change, and the order is executed as a market order when the limit is hit.</p> <p>Vice versa, in a sell trailing stop order, limit is set at a fixed number below market bid with a "trail" amount. When market bid rises, limit will also rise ("trailing" after market bid) by the trail amount. When market bid falls, limit does not change, and the order is executed as a market order when the limit is hit.</p> |

## 6. Slippage

Slippage refers to a situation in which there is a difference between the price specified by the customer (the price displayed on screen when placing an order) and the actual execution price due to reasons such as market changes after an order is placed. In some cases, slippage may be beneficial to the customer, but it may also be detrimental; however, we bear no liability whatsoever in relation to slippage. Slippage can occur with market orders and stop-loss orders. After the order placement, the price designated by the User and the actual contract price might differ, but the Company will not be liable for that difference.

## 8. Depositing and Withdrawing; Transferring Crypto-Currencies

### (1) Depositing crypto-currency to user accounts

When depositing crypto-currencies in a user account, customers must transfer the crypto-currency to the crypto-currency address that we designate. Crypto-currency transferred to the crypto-currency address that we designate will be reflected in the customer's user account once we confirm the transfer during our business hours; accordingly, please be aware that it may take time for crypto-currency transfers to be reflected in user accounts.

### (4) Withdrawing crypto-currencies from user accounts

Customers can withdraw all or part of the crypto-currencies deposited in their user account

To withdraw crypto-currency from your user account, please make a withdrawal request through the trading screen.

### Crypto-currency withdrawal schedule

| Crypto-currency | Frequency   | Time (UTC) |
|-----------------|-------------|------------|
| BTC             | ONCE DAILY  | 2:00 AM    |
| ETH             | MON & THURS | 2:00 AM    |
| ETC             | MON & THURS | 2:00 AM    |
| XRP             | MON & THURS | 2:00 AM    |
| ZEC             | MON & THURS | 2:00 AM    |
| LTC             | MON & THURS | 2:00 AM    |
| XMR             | MON & THURS | 2:00 AM    |

(5) Withdrawal Limits

Individual accounts:

- Default limits: 30,000 USD equivalent daily, 300,000 USD equivalent monthly
- Upper limits (raised upon request): 50,000 USD equivalent daily, 500,000 USD equivalent monthly

Corporate accounts:

- Default limits: 100,000 USD equivalent daily, 1,000,000 USD equivalent monthly
- Upper limits (raised upon request): 150,000 USD equivalent daily, 1,500,000 USD equivalent monthly

9. Fees

| Cryptocurrency                | Maker Fee | Taker Fee |
|-------------------------------|-----------|-----------|
| <b>Bitcoin (BTC)</b>          | -0.075%   | 0.15%     |
| <b>Ethereum (ETH)</b>         | -0.075%   | 0.15%     |
| <b>Ethereum Classic (ETC)</b> | -0.075%   | 0.15%     |
| <b>Litecoin (LTC)</b>         | -0.075%   | 0.15%     |
| <b>Monero (XMR)</b>           | -0.075%   | 0.15%     |
| <b>Ripple (XRP)</b>           | -0.075%   | 0.15%     |
| <b>Zcash (ZEC)</b>            | -0.075%   | 0.15%     |
| <b>Bitcoin Cash (BCH)</b>     | -0.075%   | 0.15%     |
| <b>DASH (DASH)</b>            | -0.075%   | 0.15%     |
| <b>Stellar Lumens (XLM)</b>   | -0.075%   | 0.15%     |
| <b>Antshare (NEO)</b>         | -0.075%   | 0.15%     |
| <b>NEM (XEM)</b>              | -0.075%   | 0.15%     |
| <b>Augur (REP)</b>            | -0.075%   | 0.15%     |
| <b>Factom (FCT)</b>           | -0.075%   | 0.15%     |

\* Maker/taker status and fee calculation is determined at the time of each match and execution against an order.

Example:

If a trader enters a limit order for 10 BTC and it matches immediately with an existing order of 7 BTC. Then the amount 'taken' is 7 BTC and the trader will be charged the **taker fee** based on that amount. The remaining 3 BTC, since unmatched will remain on the order book and this will become the **making** portion of the original order. If the 3 BTC is matched with another order then the trader will earn the **maker fee** based on that amount.
