*Theme animal: Steller sea lion*

## Theme

## Creation of a New Academic Research Field Based on a Decade of Networking

### Keynote Lecture 1 — October 22 (Thu)

**Prof. Kensuke Ikenaka**
Osaka University

Pathogenesis and Therapeutic Development of Parkinson's Disease Caused by Lysosomal Damage

### Keynote Lecture 2 — October 23 (Fri)

**Prof. Sotaro Uemura**
The University of Tokyo

Target-Agnostic Anomaly Detection by Solid-State Nanopore Single-Molecule Sensing: An Early-Warning Platform for One Health

### Event Outline

**Date:** October 22 (Thu) – 23 (Fri), 2026
**Venue:** Auditorium, Faculty of Veterinary Medicine, Hokkaido University
**Format:** In-person + Zoom Hybrid
**General presentations:** Approx. 25 presentations by students and early-career researchers
**Registration:** Information coming soon

**Please register using the QR code**

https://forms.gle/Gx6cfu7C45pBxh6j7

### Keynote & Special Lectures

**Special Lectures (Planned)**

Itaru Yanagi (The University of Tokyo)
Tetsushi Hirano (University of Toyama)
Takashi Tanida (Hokkaido University)
Jun Noda (Rakuno Gakuen University)
Masaya Uchida (National Institute of Technology, Ariake College)
Yusuke Kawai (Obihiro University of Agriculture and Veterinary Medicine)
Akifumi Eguchi (Chiba University)
Yu Ait Bamai (Hokkaido University)
and others

Detailed program information will be announced later on the website.

### Corporate Exhibition & Talks

Agilent Technologies | Bruker | Shimadzu | SCIEX | GL Sciences | Kanto Chemical

### Co-hosts

J E C

EHIME UNIVERSITY LaMer
