3 Assurance Practitioner's Responsibility

Our responsibility is to express a limited assurance conclusion as to whether the subject matter information has been prepared in compliance with the criteria in all material respects.
 Our limited assurance engagement was performed in accordance with the verification procedures stipulated by SCJ and "ISO14064-3: Specification with guidance for the validation and verification of greenhouse gas assertions".
 The procedures implemented in the limited assurance engagement are limited in their type, timing and scope as compared to the procedures implemented in the reasonable assurance engagement.
