National Network for Supporting Children with Intractable Diseases (Japan)	Hold symposia to promote understanding of intractable diseases.	1. A symposium was held in Tokyo in January 2019. Lectures about school life and the education of children under medical treatment were held. 2. A camping event was held on Awaji Island, targeting families with children with intractable diseases. Sixty people participated in the event.	-	-
Japan Committee, Vaccines for the World's Children (Bhutan)	Provide DPT vaccines and hepatitis B vaccines to be used in Bhutan throughout the year. Start developing an infrastructure for cold chains (a system to transport vaccines at low temperatures to points of consumption).	Funds were contributed for the provision of DPT vaccines and hepatitis B vaccines to be used in Bhutan next FY year, as well as Ice Line coolers for refrigerating the vaccines.	<ul style="list-style-type: none"> • Provide DPT (diphtheria/pertussis/tetanus) vaccines and hepatitis B vaccines. • Provide vaccine refrigerators. <p>KPI : Number of vaccines and refrigerators provided</p>	<ul style="list-style-type: none"> • DPT vaccines: Vaccines for 50,000 people were provided. (100% elimination of the shortage of vaccines for two-year-old children) • Hepatitis B vaccines: Vaccines for 8,000 people were provided. (100% elimination of the shortage of vaccines for babies within 24 hours of birth) • Provided 5 vaccine refrigerators.
Future Code (Bangladesh)	-	-	The NPO and ONO discuss the details of activities to be undertaken from 2020 and establish the direction of the activities.	Confirmed the content of the project starting from 2020 and set targets for activities.
People's Hope Japan (Myanmar)	-	-	The NPO and ONO discuss the details of activities to be undertaken from 2020 and establish the direction of the activities.	Confirmed the content of the project starting from 2020 and set targets for activities.

Japan Heart※ (Cambodia)	Provide one person with healthcare professional education every year. Have 100 people receive healthcare professional education.	1. A nursing student was selected, to whom we will provide support. We will pay all the student's tuition and living expenses for six years, covering university life and training at a hospital. 2. BLS training was provided to 266 people. Participant breakdown: 190 seniors from Cambodia-Japan Friendship High School 24 Japan Heart scholarship students 37 staff from Japan Heart Children's Medical Center 15 staff from Ponnell Hospital Neonatal cardiopulmonary resuscitation (CPR) training was provided to 24 local medical professionals. A child birthing simulator was used in a delivery training workshop for two Cambodian midwives.	1. Improve equipment/infrastructure at Japan Heart Children's Medical Center. <ul style="list-style-type: none"> Introduce a new CBC measuring device*5(automated blood cell analyzer). 2. Provide support for healthcare professional education. <ul style="list-style-type: none"> Support for students who aim to become healthcare professionals. Continue support for a nursing student whom we have supported since FY2018.	1. Replaced the aging CBC measuring device, which frequently malfunctioned, with a new one, enabling accurate tests to be performed within the Center in a timely manner. Without relying on other hospitals, the Center has become able to detect severe dengue infection early, perform accurate tests on child cancer patients and postpartum mothers, and obtain reliable results. Also, not relying on other hospitals for testing has led to a reduced financial burden for patients. 2. Support for students who aim to become healthcare professionals. The Cambodian nursing student whom we are supporting are working hard learning about nursing care and improving her language skills.

※Results achieved in FY2019 as a result of our support for Japan Heart Children's Medical Center in FY2018

●Cambodian healthcare practitioners who received BLS training in FY2018 at Japan Heart Children's Medical Center using BLS mannequins (donated by ONO) conducted BLS training as instructors for newly joined staff and local residents

Young healthcare professionals who were trainees last FY year became able to provide training as instructors. (All medical staff working at Japan Heart Children's Medical Center have already received training using BLS mannequins.)

KPI : 16 local residents, 55 Cambodian staff (including non-medical staff) from Japan Heart Children's Medical Center

●The midwives who received neonatal CPR training using CPR mannequins (donated by ONO) in FY2018 conducted neonatal CPR training as instructors using infant mannequins for medical staff other than midwives.

KPI : 33 medical staff from Japan Heart Children's Medical Center, 1 staff member from the public Ponnell Hospital

●In preparation for a full-fledged start of labor and delivery services at Japan Heart Children's Medical Center, Japanese midwives conducted training on child delivery assistance (practice for safe delivery, checking danger signs during labor and birth, etc.),

using a child birthing simulator (donated by ONO in FY2018).

KPI : Training was given once every two months to all of the nine Cambodian midwives at the Center
