Japan Committee, Vaccines for the World's Children (Bhutan)	<ul style="list-style-type: none"> <li>Provide DPT (diphtheria/pertussis/tetanus) vaccines and hepatitis B vaccines.</li> <li>Provide vaccine refrigerators.</li> </ul> <p>KPI : Number of vaccines and refrigerators provided</p>	<ul style="list-style-type: none"> <li>DPT vaccines: Vaccines for 50,000 people were provided. (100% elimination of the shortage of vaccines for two-year-old children)</li> <li>Hepatitis B vaccines: Vaccines for 8,000 people were provided. (100% elimination of the shortage of vaccines for babies within 24 hours of birth)</li> <li>Provided 5 vaccine refrigerators.</li> </ul>
Japan Heart * (Cambodia)	<ol style="list-style-type: none"> <li>Improve equipment/infrastructure at Japan Heart Children's Medical Center.</li> </ol> <ul style="list-style-type: none"> <li>Introduce a new CBC measuring device*5(automated blood cell analyzer).</li> </ul> <ol style="list-style-type: none"> <li>Provide support for healthcare professional education.</li> </ol> <ul style="list-style-type: none"> <li>Support for students who aim to become healthcare professionals.</li> </ul> <p>Continue support for a nursing student whom we have supported since FY2018.</p>	<ol style="list-style-type: none"> <li>Replaced the aging CBC measuring device, which frequently malfunctioned, with a new one, enabling accurate tests to be performed within the Center in a timely manner. Without relying on other hospitals, the Center has become able to detect severe dengue infection early, perform accurate tests on child cancer patients and postpartum mothers, and obtain reliable results. Also, not relying on other hospitals for testing has led to a reduced financial burden for patients.</li> <li>Support for students who aim to become healthcare professionals.</li> </ol> <p>The Cambodian nursing student whom we are supporting are working hard learning about nursing care and improving her language skills.</p>
Future Code (Bangladesh)	The NPO and ONO discuss the details of activities to be undertaken from 2020 and establish the direction of the activities.	Confirmed the content of the project starting from 2020 and set targets for activities.
People's Hope Japan (Myanmar)	The NPO and ONO discuss the details of activities to be undertaken from 2020 and establish the direction of the activities.	Confirmed the content of the project starting from 2020 and set targets for activities.

\*Results achieved in FY2019 as a result of our support for Japan Heart Children's Medical Center in FY2018

●Cambodian healthcare practitioners who received BLS training in FY2018 at Japan Heart Children's Medical Center using BLS mannequins (donated by ONO) conducted BLS training as instructors for newly joined staff and local residents

Young healthcare professionals who were trainees last FY year became able to provide training as instructors. (All medical staff working at Japan Heart Children's Medical Center have already received training using BLS mannequins.)

KPI : 16 local residents, 55 Cambodian staff (including non-medical staff) from Japan Heart Children's Medical Center

●The midwives who received neonatal CPR training using CPR mannequins (donated by ONO) in FY2018 conducted neonatal CPR training as instructors using infant mannequins for medical staff other than midwives.

KPI : 33 medical staff from Japan Heart Children's Medical Center, 1 staff member from the public Ponnell Hospital

●In preparation for a full-fledged start of labor and delivery services at Japan Heart Children's Medical Center, Japanese midwives conducted training on child delivery assistance (practice for safe delivery, checking danger signs during labor and birth, etc.),

using a child birthing simulator (donated by ONO in FY2018). KPI : Training was given once every two months to all of the nine Cambodian midwives at the Center
